

MEDICAL DEVICE PERIPHERAL COMMUNICATION

RocketPort's Operating System flexibility wins it a Place in Leading Medical Device Manufacturer's System.

When a medical device manufacturer needed to find a solution for network serial communications within their workstations, Comtrol was the only company to offer QNX operating system compatible bus interfaces.

Solution RocketPort uPCI 4J! The high-performance card featuring Comtrol's ASIC chip connects in real-time touch-screens, printers and other peripherals needed for the most technologically advanced device offered by this company. Their Engineer for Commercial Product Support commented, "The RocketPort board was the only solution for our needs and the great technical and sales support made it a seamless solution."

Warranty Information
Comtrol offers a 30-day satisfaction guarantee and 5-year limited warranty.
