

TURN-KEY GUEST SERVICE SYSTEM INTEGRATION FOR THE LODGING INDUSTRY

Lodging Link Premier seamlessly integrates hundreds of guest service systems for communication with your property management system

Lodging Link Meets the Integration Challenge

Lodging Link eliminates the need for property management system (PMS) vendors to create their own interfaces. Save money, time, and manpower by using Lodging Link Premier's turn-key system to quickly and easily integrate hundreds of guest service systems. Hotel systems include: PBX, voice mail, call accounting, in-room Internet access, point-of-sale, in-room movie, keyless entry, mini bar, and energy management systems.

An Integrated Software and Hardware Solution

Control's Lodging Link Premier provides a turn-key system to interface hotel devices.

- **Application Software**—Lodging Link Premier provides a uniform communication channel to the PMS.
- **Interface Software**—Customize with an extensive selection of hotel device interfaces for the needs at each site.
- **Hardware**—Solid-state, 8-port application server running Microsoft Windows® 7 for easy integration with existing systems
- **Support**—Continuing development support and turn-key installation. Premier is accessible remotely via Windows Remote Desktop

Lodging Link Premier

Part Number: 30161-5

SPECIFICATIONS

OPERATING SYSTEM

Microsoft Windows 7

APPLICATION SOFTWARE

Lodging Link PTS Loaded

HARDWARE

Processor

Intel Atom D2550 1.8 GHz Dual Core

Memory 2GB

Storage 32GB Solid State Drive

Serial Connectors (8) DB9 Male

Ethernet Ports (2) 10/100 BASE-T

Housing Rugged Black Steel

Weight 7.93 Lbs

3.6 Kgs

Dimensions 10" x 9.89" x 4"

25.4 x 12.12 x 10.16 cm

ENVIRONMENTAL SPECIFICATIONS

Operating Temperature 0 to 50°C

Humidity
(Non-Condensing) 0% to 95%

Altitude 0 to 10,000 ft

0 to 3,480 m

REGULATORY APPROVAL MARKS

RoHS2 Compliant under CE

FCC Part 15 Subpart B Class A

ELECTRICAL SPECIFICATIONS

Internal Power Supply

Line-in

115/230VAC 50/60Hz 0.5/0.2A

Surge Protection

15KV ESD - Serial Line

US Style Power Cord

Euro Style Power Cord

EXCEPTIONAL BENEFITS

Lodging Link Premier is a solid state, turn-key system running the Windows 7 OS with Comtrol's Lodging Link PTS integration software. It offers significant benefits for the developers of hospitality systems, as it functions as a universal protocol translator.

Legacy System Support

- Integrate your existing PMS and hotel devices quickly and easily, avoiding costly system changes or installation problems. Once Lodging Link Premier is installed, you have the capability to add hotel systems—simply order a new Lodging Link Premier interface from our automated delivery system and you're connected!

Thin-Server Delivery

- Connect the Lodging Link Premier via a serial or Ethernet port with no impact on your existing computing resources.

If your PMS server goes down, Lodging Link Premier keeps running and buffers data until reconnected! And since it's an application-specific solid-state computer, it's much less expensive to maintain than a general-purpose PC or server.

Eliminate Interface Development

- The single PMS to Lodging Link interface eliminates the need for a PMS vendor to write hundreds of interfaces. It also enables hotel device vendors to make their product instantly compatible with all PMS systems that use Lodging Link.

Contact Sales (information below) to obtain a Lodging Link Developer Kit. Developing to UHLL is quick and easy with the Lodging Link Developer Kit.

Warranty Information

Covered by a 2-year warranty followed by an ongoing maintenance program.
